Dear Kewei Li,

I am pleased to offer you a position as a Volunteer Summer Research Intern at the College of Engineering and Computing, University of South Carolina. Your term will run from July 15 to September 1, 2024. During this period, you will be involved in cutting-edge research in the areas of structural health monitoring, scientific machine learning, and digital twins.

As a research intern, your primary responsibilities will include:

1. **Research Assistance:** Assisting in the development and implementation of algorithms and models for structural health monitoring and digital twins.
2. **Data Analysis:** Analyzing experimental data and simulation results to validate research findings.
3. **Literature Review:** Conducting comprehensive literature reviews to support ongoing research projects.
4. **Collaboration:** Working closely with faculty members, postdoctoral researchers, and graduate students to contribute to the advancement of our research goals.
5. **Documentation:** Preparing reports and presentations to communicate research progress and findings.

This unpaid volunteer position is designed to provide you with valuable research experience and an opportunity to contribute to significant projects. We expect you to maintain a professional attitude, adhere to the university's policies, and actively participate in all assigned tasks and meetings. Your involvement and dedication will not only enhance your skills but also contribute to the success of our research.

Please confirm your acceptance of this offer by signing and returning the enclosed copy of this letter by July 15, 2024. If you have any questions or need further information, feel free to contact me at [ail@email.sc.edu](mailto:ail@email.sc.edu) or 201-381-8582.

We look forward to your valuable contributions and are excited to welcome you to our research team.

Sincerely,

**Li Ai, PhD**

Research Assistant Professor  
College of Engineering and Computing  
University of South Carolina
